The book is an easy read, written in a light, down home style which made it easy to relate to the man telling the tale. He has some good ideas and suggestions that, frankly, had never occurred to me. "Don't forget the toilet paper!" While Mr. Hurley throws in a few chuckles, he also provides detailed instructions

and a list of websites and sources of more information and supplies. The Kindle edition has the usual Kindle bad auto-corrects and break offs we find in Kindle first editions, but I'm sure they will let us know when it's updated. The basic needs to survive in almost any situation that may arise, it is not as hard as some may have you believe. You have been prepping all of your life and did not even know it. Much of what you see on TV is not real, it is on there to make you buy very expensive products. Most of which you can make with things you have around your home.
