1 of 1 people found the following review helpful. One of the Best Teach Yourself Guides By Ms. Alene M. Keenan I love this book. I gave it a 5-star rating because it shows how to make classic arrangements step by step. So many of us who are trying to learn flower arranging have very limited understanding of how things work/how things go together. This really put it all in perspective for me. I feel confident that I could re-create any of these designs by simply following the instructions. 1 of 1 people found the following review helpful. Dont buy it By Betty Wilson Ensley This book doesn't show you any real steps on how to arrange flowers....If you are looking to learn about arranging flowers for you home don't get this book. It had many pages of useless stuff that didn't help me learn anything. Nice pictures of some real weird and ugly arrangements ! 1 of 1 people found the following review helpful. boring and dull By ogee Not what I anticipated, not illustrative at all
