Deborah Munoz-Chacon : Getting The Most Out of Your Desert Landscaping before purchasing it in order to gage whether or not it would be worth my time, and all praised Getting The Most Out of Your Desert Landscaping:

Written for those living in a desert region who want to know how to have a healthy vibrant landscape and those who maintain those landscapes. This is not your usual gardening book. It's written from the perspective of a landscape company business owner with practical information that you can use. If you want to know what your landscaper

should be doing to keep your yard looking great and when they should be doing it, this is the book for you. And, desert landscape company business owners will find the information that your clients want to know from you in this book. Lots of examples of common desert landscaping problems and solutions.

About the Author Deborah Munoz-Chacon is the owner of Sonoran Oasis Landscaping, a Tucson-based full-service landscape company specializing in xeriscape landscapes and sustainable desert landscaping. She has been in the landscape industry for over 20 years. She started Sonoran Oasis Landscaping on her own as a woman-owned business in the green industry in 2005. Deborah is a certified arborist, a certified water auditor and holds a weed control chemical spray license from the state of Arizona. She was a finalist for the Total Landscape Care 2015 Landscaper of the Year award. And, she was the winner of the 2006 Tucson Small Business Administration Minority Enterprise Development Service Firm Award. Deborah was also a finalist in the 2007 National Enterprising Woman of the Year award.
