**Jan Showers : Glamorous Retreats** before purchasing it in order to gage whether or not it would be worth my time, and all praised Glamorous Retreats:

Interior Design Book, Glamorous Retreats, by Jan Showers By design 360I previously purchased Ms. Showers "Glamorous Rooms" interior design book and loved it. This one not so much. I found the decor in her "Glamorous Retreats" book too like the decor in her former book. Frankly, if I am any of the home owners whose rooms were shown in this book, I would like to see something more out of the box and less repetitive of Ms. Showers' other projects. I know some designers have signature design elements, but it is refreshing to see designers that make each project look fresh and different from the others they have done before.3 of 3 people found the following review helpful. Beautiful Book By lynne grebil This is a very enjoyable book with wonderful photos and inspirational ideas. Of the many decorating books I own, this will be one of my favorites!2 of 2 people
