No special tools to buy just basics, not like a lot of other books that claim the same thing.2 of 2 people found the following review helpful. Beginner Woodworker!!By 31jjThis book is excellent. Easy to do woodworkin projects. I have personally built 3 items from this book. I am looking to do another soon.2 of 2 people found the following review helpful. Easy to useBy Susannah M. CruzI have enoyed this book along with the others that come with a set I purchased, but I lost this one in Home Depot and never found. These books are easy to use, lots of good and useful items. I used these books for 4-H and kids got blue ribbons and went to State Fair with their projects.

With a little bit of skill, stock lumber, and simple tools, you're ready to start any of these 23 practical and handsome projects for the home: an ottoman, folding screen, wine cabinet, and even a grandfather clock. Turn an ordinary bed into a four-poster and light up any room with a pretty birdhouse floor lamp. For every project you'll find instructions, copious illustrations, and a cutting guide.
