This Second Edition of Great Garages, Sheds Outdoor Buildings presents 155 garages and outbuildings45% of them new to this editiondesigned to fit virtually any home exterior or landscape plan. Youll find simple garages and structures, as well as more expansive two-story garages that do double-duty. And all have the unique design details for which Home Planners is famous.Here are structures homeowners want, from the simplest of utility garages to wonderfully complete guest-house garages. Also included is an array of other outdoor buildings to complement any yard, to serve as a hobby shop or home office, or to house a favorite horse. This book offers unique and functional solutions to fit every need.
