From Rodale Press : Great Garden Gadgets: Make-It-Yourself Gizmos and Projects before purchasing it in order to gage whether or not it would be worth my time, and all praised Great Garden Gadgets: Make-It-Yourself Gizmos and Projects:

1 of 1 people found the following review helpful. Chock full of great ideasBy Butterfly LadyI had to buy a used copy because this is now out-of-print. It would be wonderful if a new edition was published. I had borrowed it from the library and decided I wanted my own copy. I had to look carefully at descriptions of condition before buying. My copy arrived with coffee stains on the cover, but I was able to clean them off, and otherwise it was in excellent condition for a used copy. The spiral binding is just a cover illustration for my paperback copy - no spirals at all.0 of 0 people found the following review helpful. Lots of Gardening IdeasBy CustomerI chose this book because of my interest in gardening and was looking for some fresh ideas and this book didn't fail me. Practical, easy, and homemade gadgets using stuff you already have around the house. Great for beginning and seasoned gardeners alike.0 of 0 people found the following review helpful. Five StarsBy Cary OdellThis book is just fun reading, good bathroom book.

Want to have more fun gardening--and save time and make tricky jobs easier while you're doing it? What you need is a great garden gadget--or a whole wheelbarrow full of them! And now, for less than the price of a gadget you can buy in a store, you can have an entire book of instructions for garden gizmos that you can make yourself. You don't have to go out and buy special materials to make these doodads, either. Chances are, you already have materials around your house for these fast and easy projects. You'll find out how to: Turn milk jugs into a deep-watering irrigation system for tomatoes Create your own seed tapes with flour or gelatin, water, and newspaper or paper towels Fashion a tree trunk protector from a plastic nursery pot Transform an old baby gate into an instant garden trellis Make an instant birdbath with a tomato cage and a drainage tray
