Tim Richardson : Great Gardens of America before purchasing it in order to gage whether or not it would be worth my time, and all praised Great Gardens of America:

0 of 0 people found the following review helpful. I was disappointed, there's more text than pictures of the gardensBy JaredThe book is more a history of gardens in America than anything. I was disappointed, there's more text than pictures of the gardens. The best part of a garden is looking at and enjoying it, you'll miss much of that with how the pictures in this book are stingy and prefers and editorial instead.0 of 1 people found the following review helpful. Gives you a very small sampling of fine American GardensBy Beverly R. BinghamOverall liked it a lot my only disappointment was how few gardens were in it and some that should have been

An authoritative and superbly illustrated celebration of the great gardens of the United States and Canada from the author of the highly acclaimed *The New English Garden*. The gardens chosen for this book range from eighteenth-century landscape gardens such as Thomas Jefferson's Monticello in North Carolina, through twentieth-century

creations such as the lakeside garden at Innisfree in New York State and dramatic Naumkeag in Massachusetts to the work of exciting new designers such as Topher Delaney in San Francisco and Martha Schwartz in New Mexico. Many of the gardens are open to the public, so readers can actually visit them. The others, newer domestic gardens, offer instead glimpses into a glamorous world of luxurious outdoor living. A very satisfying literary and visual experience providing a great temptation to gardeners.
