From Schiffer Publishing, Ltd. : Home Workshop Jigs and Fixtures: Shop Proven (Home Woodworker Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Home Workshop Jigs and Fixtures: Shop Proven (Home Woodworker Series):

0 of 0 people found the following review helpful. Five Stars By Carol Clearly written with good pics. Projects are explained well and easy to follow. 0 of 0 people found the following review helpful. very interesting book. I don't know how many of ... By iagolfer very interesting book. I don't know how many of the jigs and fixtures I would use, but it made for interesting reading. 0 of 0 people found the following review helpful. Five Stars By lost mountain man Great transaction... good book. A+++

With over 170 color photos, 120 plans and graphs, and clear, straightforward text, this book offers woodworkers a

golden opportunity to take their shop and skills to the next level with a full-range of scrap-wood problem-solving projects. You will have the ability to make every machine and portable power tool better and safer to use. The projects include jigs for cutting splines and box joints at the tablesaw, a dead-accurate tablesaw jig, a multi-function drill-press table, bandsaw resaw jig, several go-to router jigs, a circular saw plywood guide, and so much more. For the most part, the jigs and fixtures are made from materials lying around the shop. Some store-bought hardware may be needed for the construction. In many instances, you'll find yourself using some of the key jigs and fixtures again and again. When it comes to machining wood safely and precisely, you'll find this incredibly useful guide earning its keep in your shop from day one!

About the Author A lifelong woodworker, Jim Harrold's experience in books and magazines spans 34 years. He has served as the executive editor and editor of some of the top woodworking magazines in the world. And when he's not at his desk writing or editing woodworking stories, he's in his shop designing and building projects, and, in general, making sawdust.
