**Jo Scheer : How to Build With Bamboo: 19 Projects You Can Do at Home** before purchasing it in order to gauge whether or not it would be worth my time, and all praised How to Build With Bamboo: 19 Projects You Can Do at Home:

2 of 2 people found the following review helpful. Unless you have jumbo bamboo dont buy this book!By Daniel CamachoI bought this book because I had a forest of bamboo in the backyard but all the designs are for bamboo that is about 3-4 inches across.1 of 1 people found the following review helpful. For Interior Decoration Only...By Wesley D. CheneyI bought this book expecting to learn more about bamboo construction techniques. Sadly, I've learned more on the internet. There was no discussion of how to select or cure bamboo culms, and the most detailed instructions were reserved for ornamental, interior objects, rather than utilitarian, external objects.If I'd paid full price, I'd only give this book 2 stars. But I bought it used, so it's worth 3 stars, barely.0 of 0 people found the following review helpful. Bamboo giftsBy AldisBook is ok.Good and interesting simple bamboo projects. Enough photos and drawings.Useful for beginners.
