Kevin Geist : How to Build Wooden Gates Picket Fences before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Build Wooden Gates Picket Fences:

0 of 0 people found the following review helpful. Four Stars By Kim Fahey OK...1 of 1 people found the following review helpful. Great resource! By JGW Great book! We modified a design from the book and get so many compliments on our new fence! Someone actually stopped their car in the middle of the street and got out to take a look. Well put together and easy to follow. We ordered 4 fence design/how to books and this was by far the best. 0 of 0 people found the following review helpful. The title of the book was misleading for my purpose but might be great for someone primarily concerned with fences By Judith A. Jacobson Very little information on gates--a lot on building fences. The title of the book was misleading for my purpose but might be great for someone primarily concerned with fences. I did not evaluate it from that aspect.

Revised and expanded, with new full-color photographs Steps for planning and locating a fence, setting posts, creating infill, and attaching gates Techniques for building the fence you want Advice on tools, materials, foundations, and special features Easy-to-use patterns Foldout of full-size pickets 130 designs included
