reference.0 of 0 people found the following review helpful. good infoBy CustomerLots I didn't know. .my sister had recommended this to me. Not your usual information, lots of tools and tricks new to me1 of 2 people found the following review helpful. This book does not offer time saving methods.By EricIf you are thinking this book will give you valuable tips on how to save time and effort in lawncare, think again. This book is mostly devoted to gardening, and typical yardwork is only briefly covered. And when yardwork is covered, there are no "cheating" tips to help you save time or effort. To the contrary, this book makes suggestions that involve time-consuming, labor-intensive pampering of the yard! The book suggests you mow ever 3-5 days in the summer and only cut 1/3 or less of the grass blade off. How is that saving time?

Do you love the look of a stunning flowerbed or a nice expanse of lawn bordered by attractive shrubs, but don't have time to spend the whole weekend in your backyard? It's time to cheat in a smart way. In *How to Cheat at Gardening and Yard Work* by Jeff Bredenberg, you'll find hundreds of work-reducing, time-saving, cost-cutting gardening tips that will reward you with the best-looking yard and garden you've ever had with less work than ever before. Cheating on garden and yard tasks is part attitude adjustment, part shortcuts, and part simplicity with a healthy dose of making clever choices. You'll discover effective and efficient methods to complete just about every garden project, chore, cleanup, or predicament you'll face. Set aside the things you've done for years and discover: -How the right tool can save you time and save your back -That doing less for your lawn actually means better results -Why planting a diversion crop cuts down on your pest-patrol efforts That groundcovers and foliage plants are no-hassle solutions for weedy flowerbeds

About the AuthorJeff Bredenberg has authored, coauthored, and edited more than 20 titles, and he frequently shares his how-to tips in TV and radio appearances and newspaper and magazine articles. He's written three other books in the *How to Cheat* series and empowers homeowners to get things done faster, better, and cheaper.
