Not what I was expectingBy JMThe book is informative and does cover the material on the cover of the book, but I was looking for different ways of cleaning the various types of fish (although I guess there aren't really that many). The books really only spends a few pages on the fish cleaning, an internet search would probably be equivalent. But then again it wasn't very expensive (used).0 of 0 people found the following review helpful. For the avid fisherBy LadybugI purchased this book as a gift, and it was definitely a BIG hit! However, there is really good information in this book that the recipient found most helpful. Would recommend if you like to fish.0 of 0 people found the following review helpful. Great for teens!By FoxyMy son went camping with the boys but no one knew how to clean fish. Since no grown ups allowed, we gave him this book. Give this book to your kids!!!!!!

Get the secrets from the pros. How to keep 'em fresh, how to fillet 'em, how to pack 'em for the trip home, how to

freeze 'em, how to cook 'em, how to care for a great fillet knife, and more.
