Steve Lorch : How to Grow and Make Tea In the Continental United States before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Grow and Make Tea In the Continental United States:

0 of 0 people found the following review helpful. If you're considering planting tea as a crop in the ...By Jon AdamsIf you're considering planting tea as a crop in the US, start here. It's full of concise and accessible information for the beginner from people with real experience. I have been researching for a few weeks and for someone based in the US

this book beats any information on the internet. My only complaints are that specific sources for seeds aren't given, and a couple of the BW photos came out a little blurry in this printing. 1 of 3 people found the following review helpful. The book is written very clearly but also detailed making easy to understand at any skill level By M. Moser Steve Lorch's book is a very clear and concise guide on growing traditional teas in the U.S. The book is written very clearly but also detailed making easy to understand at any skill level. This book is a must have for any tea enthusiast.

The first modern book of its kind, *How to Grow and Make Tea In the Continental United States*, is just what it says it is a How To manual for the new tea growing generation! Written by Steve Lorch, Certified Tea Specialist and founder of Table Rock Tea Company, Ltd., this is the "go to" guide for growing and production of tea (*Camellia sinensis*). Geared toward the small-scale commercial grower and the single-plant hobbyist, *How to Grow and Make Tea In the Continental United States* covers everything from buying seeds, to making cuttings, to harvesting and production of finished product. Straightforward, step-by-step instructions will have you growing, making, and sipping your own homemade tea like the pros!

About the Author Steve Lorch is the founder of Table Rock Tea Company, Ltd. He is a Certified Tea Specialist, and has been growing tea on his farm in South Carolina since 2008. Often sought out as a guest speaker, Steve is known as one of the leading pioneers working toward a sustainable American tea industry.
