John Jeavons : How to Grow More Vegetables: And Fruits, Nuts, Berries, Grains and Other Crops Than You Ever Thought Possible on Less Land Than You Can Imagine before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Grow More Vegetables: And Fruits, Nuts, Berries, Grains and Other Crops Than You Ever Thought Possible on Less Land Than You Can Imagine:

0 of 0 people found the following review helpful. Five StarsBy Phyllis J. RaceVery informative. The only gardening book you will need.0 of 0 people found the following review helpful. Easy to readBy Claire SchriderThis was

enormously popular at my community garden. I bought a copy for myself a few months ago, and after I shared it with the garden members several of them went home and ordered themselves a copy. Easy to read, engaging, thorough. 4 of 4 people found the following review helpful. BEST BOOK EVER. By Anne Ruthstrom This is for the layman. I am not exactly an amateur, but certainly not a professional! This has completely changed the way I go about growing my food, with seasonal and yearly charts in the back to help guide you for the first 5 years, even. SO MUCH INFORMATION and not overwhelming! I love it, and my roommates are not garden enthusiasts but now refer to this book. It has certainly helped my friends come to love gardening and made my life easier.

A classic in the field of sustainable gardening, HOW TO GROW MORE VEGETABLES shows how to produce a beautiful organic garden with minimal watering and care, whether it's just a few tomatoes in a tiny backyard or enough food to feed a family of four on less than half an acre. Updated with the latest biointensive tips and techniques, this is an essential reference for gardeners of all skill levels seeking to grow some or all of their own food.

About the Author JOHN JEAVONS is a cofounder of the group Ecology Action and the father of the modern biointensive gardening movement. He lives in Willits, California, where he has been growing more vegetables for decades.
