his story minus anything that you could actually use. Its supposed to be a book to motivate but falls short. It's full of typos and the sentences are spaced out in a way that is really jarring to anyone that is used to standard paragraph format. If the book was in traditional paragraph format it would be about 1/4 The length, I mean there's not even page numbers and chapters are half a page to two pages. So again DO NOT BUY THIS BOOK! Watch his videos but leave the book alone.2 of 2 people found the following review helpful. Not what I expected.By Robert HansenI found that Keith's YouTube videos were much more useful than the book.At least Keith took some kind of steps to get his thoughts in print.1 of 1 people found the following review helpful. Poorly writtenBy Nathanj916Poorly written book grammar errors no structure or flow. If you have a jr high level education this book would probably be great for you. Content is sub par at best.

How to Start a Landscaping Business By Keith Kalfas is a Classic Struggle to victory story on how to overcome fear and self-doubt. This book is for someone stuck in a dead-end job and looking to venture out into they're first small business.
