Swindlers!By CustomerI ordered few aquaponic books.They were exactly copy of each other even though they had different authors.Little information that was probably just found on internet.Those are the word by word same books that are out there so far I know..Useless books i bet the writer doesnt even have an aquaponic system!!!Gardening for Beginners: 3 in 1 Crash Course:.Sarah ParsonHydroponics: Aquaponics: The Ultimate 2 in 1..Jonathon CardoneAquaponics: The Ultimate 2 in 1 Guide to...Breanna Lawrence0 of 0 people found the following review helpful. Very informative book!By Lisa DoornekThis is such a good book. This is my first season with my aquaponics set up and I couldn't have gotten as far with it as I have without the advice included in this book. It is easy to read and understand and it is a book I would recommend to anyone interested in getting into the hobby.1 of 1 people found the following review helpful. Great readBy JertherThis is a very good book for beginners. Not only is it an easy read it is also very informative. There are techniques and skills discussed in the book that I am sure you may not find anywhere else. Cordon, does and excellent job turning this read into a guide on how to deal with pests as well as, parasitic attacks, something I had been struggling with myself. Trust me when I say again that this book is very informative.. You will not be disappointed. Good book, great price!
