It is relatively current, but I do hope that someone will publish another book with more updated challenges and ideas for great rooms and unifying great rooms, since many incorporate kitchen eat-ins as well as "family room" living. I would recommend this book because it is in fact useful. 0 of 0 people found the following review helpful. Great Coffee Table Book By Brenda Thompson This is a great coffee table book. Everyone that sees it picks it up to look at the beautiful pictures. Very sturdy and will last a lifetime.

This new addition to the popular Ideas for Great series explores ways to enhance the quality of a family's most-used room by reorganizing, redesigning, or even remodeling this hub of the household. Included are insightful ways to

improve the comfort and design of these multipurpose great rooms, where todays families gather to cook and dine together, watch videos, visit with friends, use the computer, or just hang out.
