Tricia Guild, Elspeth Thompson, Gilles De Chabaneix : In Town: Contemporary Design for Urban Living
before purchasing it in order to gauge whether or not it would be worth my time, and all praised In Town:
Contemporary Design for Urban Living:

If there are no tips or they are not informative, I will still buy a book if it has beautiful pictures. However, I was not creatively inspired by this book. I think the design choices are boring. I'm glad I did not buy this book. Other resource: Another of Tricia Guild's books titled Think Color is so much better. Her bold use of color in this book is both refreshing and inspiring. 7 of 7 people found the following review helpful. a challenge By Cristina Araya A. BEAUTIFUL! , this book encouraged me to transform my old house

without necessarily changing the beauty of it. Tricia Guild made me dare to bring new colors to my house and giving my family a bright place to live. THEY LOVED IT! .12 of 15 people found the following review helpful. Delicious book

Much better than her other books in her use of bold, imaginative color. Not for the timid. Don't worry about the urban bit, good design is welcome everywhere :-)

For over 25 years, Tricia Guild has been at the cutting edge of contemporary design. Her ability to mix vibrant color and pattern and her imaginative use of modern arts and crafts translates particularly well to city living. With the help of Elspeth Thompsons stimulating essays and Gilles de Chabaneixs luminous photos, Trisha Guild in Town presents a blueprint for modern urban living.

From Library Journal
The Designers Guild, which Tricia Guild founded over 25-five years ago, is best known for its inventive use of bright, bold color combinations. Here Guild's remodeled London Victorian town house serves as an exemplar that reflects her feelings for unusual color combinations and modern design. The second half of the book presents homes in New York City and London that share Guild's sensibility. Photographed by Gilles de Chabaneix and described by Elspeth Thompson, the New York and London homes show restraint compared to Guild's chaotic use of color. A nice counterpoint to the country look; purchase where there is an interest in strong, bold, modern design.
