This is one of my favorite books to read as a beginner gardenerBy CustomerThis is one of my favorite books to read as a beginner gardener, trying to learn about planting and caring for a flower garden. I received the book very quickly. The condition of the book is like new. The book is good reading material for a beginner gardener like myself. There are a lot of color photos in the book, which are very helpful to a to me, as a beginner, in learning what flowers, shrubs, trees, and other plants, look like, and how to plant and care for them.0 of 0 people found the following review helpful. It is so important to know about Native Plants if you

garden!By Michelle MI have bought two of this particular book and recommended it to several people who live near by so that we can enjoy knowing that our gardens help instead of hurt the local flora and fauna. I have a vast collection of books on this subject and I find this one is about 90% of what one would need. Also, INPAWS is the connection for the NW IN area to make certain you are doing the right thing for our world regarding plantings. One thing I found particularly important is data on how attractive the plants are to deer as there is an over population of them in our area. Please be aware of plants that can grow here as opposed to plants that should be grown here. Five stars!0 of 0 people found the following review helpful. my go-to gardening referenceBy Keith CMY go-to gardening reference

Gardening is now the favorite outdoor leisure activity in America. Homeowners realize the health benefits available from gardening and the potential increase in their home's property value. Regional gardening titles offer the most useful advice because they provide credible information on the plants that perform best in specific states. Gardeners want information they can trust and use successfully in their own gardens. The Arizona Gardener's Guide is a full-color plant selection resource guide written especially for Arizona gardeners. It includes the top 175 landscape plants as recommended by one of Arizona's most respected horticultural experts.

About the AuthorJo Ellen Meyers Sharp, a garden columnist for The Indianapolis Star and the Indianapolis Business Journal, is a regional director of the Garden Writer's Association. An Advanced Master Gardener, she teaches and lectures frequently about various gardening topics. She is also a frequent guest contributor to area television and radio programs. A former newspaper reporter she owns JEMStone Communications, a freelance writing and communications business. She has a BS in education from Indiana University-Purdue University at Indianapolis.Tom Tyler gained experience as an Extension Educator and horticulturist for the Purdue Cooperative Extension Service in Indianapolis. He reaches gardeners through gardening lectures, workshops, newsletters, and other community projects while coordinating urban gardening efforts in the county.
