From Information Science Publishing : Intelligent Information Systems and Knowledge Management for Energy: Applications for Decision Support, Usage, and Environmental Protection before purchasing it in order to gage whether or not it would be worth my time, and all praised Intelligent Information Systems and Knowledge Management for Energy: Applications for Decision Support, Usage, and Environmental Protection:

More than ever before, energy is becoming one of the most crucial concerns in economical and industrial development. Intelligent Information Systems and Knowledge Management for Energy: Applications for Decision

Support, Usage, and Environmental Protection provides in-depth analysis of the need for a holistic approach for the construction and engineering of cities and societies. This defining body of research examines key issues and approaches for energy use and provides future direction of development as well.

About the Author Kostas Metaxiotis is an assistant professor at the University of Piraeus and has been the senior advisor to the secretary for the Information Society in the Greek Ministry of Economy and Finance since 2004. He has wide experience in knowledge management, artificial intelligence, object-oriented knowledge modeling, inference mechanisms, e-health, and e-business. He has published more than 70 scientific papers in various journals and conferences, such as the Journal of Knowledge Management, the Journal of Information and Knowledge Management, Knowledge Management Practice, the Journal of Intelligent Manufacturing, Applied Artificial Intelligence, Industrial Management Data Systems, and the Journal of Computer Information Systems. Dr. Metaxiotis is a member of editorial boards and a reviewer for several leading journals in the field and has been a member of the program committee for several international conferences. Since 1996 he has been participating in various European Commission (EC)-funded projects within Tacis, Phare, MEDA and IST programs as senior ICT consultant and manager. Since 2007 he has been serving as an external evaluator of EC-funded ICT projects.
