They bring up great key points that you can expand upon in the book if you don't fully understand each card. They do not provide enough material alone to pass the exams - you have to at least skim the book and understand concepts rather than just answers to questions. They're broken down into 3 colors - one for IDFX, one for IDPX, and one that covers topics found on both tests. I would definitely recommend using them to figure out where your strengths and weaknesses are so you can better utilize the book.2 of 2 people found the following review helpful. Buy the Flash CardsBy Karen JosueThe cards are very helpful. They make you focus on topics that you may have glossed over in your reading of David Ballast's book. They are easy to carry around so you can study anytime and anywhere. They help to pinpoint topics in the book that one needs to review in more detail. I highly recommend them.1 of 1 people found the following review helpful. Five StarsBy N OwensDefinitely helped me pass the NCIDQ!
