ISO/TC 207 : ISO 14064-1:2006, Greenhouse gases - Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals before purchasing it in order to gage whether or not it would be worth my time, and all praised ISO 14064-1:2006, Greenhouse gases - Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals:

This part of ISO 14064 specifies principles and requirements at the organization level for quantification and reporting

of greenhouse gas (GHG) emissions and removals. It includes requirements for the design, development, management, reporting and verification of an organization's GHG inventory. ISO 14064 is GHG programme neutral. If a GHG programme is applicable, requirements of that GHG programme are additional to the requirements of ISO 14064.
