**ISO TC 118/SC 3 : ISO 8662-5:1992, Hand-held portable power tools - Measurement of vibrations at the handle - Part 5: Pavement breakers and hammers for construction work** before purchasing it in order to gage whether or not it would be worth my time, and all praised ISO 8662-5:1992, Hand-held portable power tools - Measurement of vibrations at the handle - Part 5: Pavement breakers and hammers for construction work:

Supplements ISO 8662-1 and describes a type test procedure for establishing the magnitude of vibration in the handle of a pavement breaker or hammer operating under a specified load. The power tools covered may be electrically,

pneumatically or hydraulically driven, or driven by means of an internal combustion engine. Annex A gives a definition of the basicentric coordinate system, Annex B a model test report.
