0 of 0 people found the following review helpful. For Plumbing GeeksBy Warren LieboldIf you made the effort of visiting the Museum of Plumbing outside of Boston, then this book is for you. If you are interested in historic (19th Century) domestic technology, this book is for you. Otherwise, not so much.

A complete reproduction of the 1895 / 1896 General Plumbing Catalogue from James B Clow Sons with a new introduction by Ross Bolton. No where else is there such an exhaustive list of all things plumbing, including water closets (toilets), urinals, bath tubs, sinks (lavatories), showers (very new at the time), faucets (bibs), radiators, pipe, valves, fittings, hydrants, boilers, pumps, tools of the trade, and more. The Clow Company was regarded as such leaders in their field that they wrote the Plumbing entry in the 1905 Encyclopedia Britannica.
