Jane G Pepper : Jane Pepper's Garden: Getting the Most Pleasure and Growing Results from Your Garden Every Month of the Year before purchasing it in order to gauge whether or not it would be worth my time, and all praised Jane Pepper's Garden: Getting the Most Pleasure and Growing Results from Your Garden Every Month of the Year:

2 of 2 people found the following review helpful. Simple PleasuresBy Wendy KaplanJane Pepper has been writing a gardening column in the Philadelphia Inquirer for more years than I can remember, and for just that long, she has been part of my gardening life. Pepper has a way with words, and a way with plants, that make her columns a pleasure to read and very easy to understand, "Jane Pepper's Garden" is a treasure trove of her best advice.I am giving this book to several gardeners on my holiday list to tide them over the long winter months. It is such a pleasure to read, and written with such enthusiasm, that one starts daydreaming even on a snowy day: "Maybe I should start roses this year. Maybe I can really do it...I wonder if I should move my hostas?"Born in Scotland, Pepper retains that distinctly British no-nonsense voice. The book begins in the month of March, as she explains what can be done and should be done to prepare for the season ahead. It is like talking to a favorite aunt over tea, and one cannot help feeling inspired.Houseplants are not neglected in this book, and Pepper speaks of them with the same enjoyment that she does roses...and everything else.This book is a treasure. Do yourself a favor and buy it for yourself. Then, when the weather is at its bleakest, you can turn to "Aunt Jane" and talk gardens to your heart's content.1 of 1 people found the following review helpful. Jane, How can we garden when the Missouri River ...By CustomerJane, How can we garden when the Missouri River and the Stand Rock Sioux Treaty Lands are being threatened by the potential oil pipeline pipeline which could spill, explode, leak and contaminate soil and water!? As a fellow gardener, I believe we need to protect our land and water. Let's divest from the pipeline and seek out other sources of cleaner energy!Jane G Pepper is a board member of PNC Bank which is a major investor in the Dakota Access Pipeline.1 of 1 people found the following review helpful. Hey Jane, How does your garden grow when a ...By Nica RossHey Jane,How does your garden grow when a pipeline is leaking underneath it? Cause that's what PNC bank is investing in. DIVEST IN THE DAKOTA ACCESS PIPELINE. All gardens and bodies need clean water to grow. Put your money where your heart is!Jane G. Pepper is a board member of PNC bank which is a major investor in the Dakota Access Pipeline.

From one of the nation's best-loved gardeners come expert tips, techniques, and advice for growing beautiful flowers and delicious vegetables and herbs, and raising hearty houseplants--every month of the year. Jane Pepper draws on over 20 years of her own experience and hundreds of interviews with gardening experts from around the world in an insightful guide that will help you achieve maximum results and enjoyment in your garden. Each chapter contains timely tips, seasonal suggestions applicable to different sections of the garden, and detailed information on specific gardening topics. Perfect for passionate gardeners and beginners alike!

From BooklistPepper, who has been growing vegetables, herbs, and fruits in her own garden in a Philadelphia suburb for nearly 30 years, begins her book with the month of March, insisting that, with any luck, gardeners can then start planting some early vegetables. Pepper inaugurates her discussion of each month with gardening tips and then offers a monthly overview on what must be done. For some months she gives a selection of easy-to-grow perennials, annuals, small flowering trees, large trees, herbs, ferns, vines, grasses, and ground covers. There is very little gardening during the winter months, so Pepper offers pointers on raising houseplants. This comprehensive paperback includes data on planting, fertilizing, pruning, propagating, composting, watering weeding, transplanting, mulching, and winterizing. No facet of gardening is left undiscussed. Sixteen pages of color photographs and 21 black-and-white diagrams complement the informative text. George CohenAbout the AuthorJANE PEPPER is the president of the Pennsylvania Horticultural Society.
