typographical errors made me give up at that point. Pity, because it could probably be turned into an interesting little book if properly proofed and edited. I got it free, so I'm not too bothered, but I'd be annoyed if I had actually paid for it. 0 of 0 people found the following review helpful. Great if your yard is a blank canvas. By chablis This offers some great ideas but isn't practical for all spaces without a major, expensive yard overhaul. It isn't really what I expected, although, I'm not real sure what I was expecting. I would love to implement some of the plans given but just cannot afford it in time or money. 0 of 0 people found the following review helpful. Japanese Gardens Comprehensive Resource By GloryGrace This author gave me a comprehensive overview of the subject of Japanese gardens, including Zen gardens. I found the writing interesting and informative as well as easy to follow and understand. I will refer back to the details when I start to design and implement my own Japanese garden.

Japanese Gardens - Revealed and Explained is comprehensive and thorough in its coverage of the subject of Japanese gardens and provides the reader with a window into the history, meaning and eye catching beauty of these unique creations. All aspects of Japanese gardens and gardening are covered from design to ingredients with coverage of subjects such as pruning techniques as well as numerous suggestions of what to plant in a Japanese garden courtesy of Master gardener L.H. Bailey. Discover Zen gardens (sometimes known as Japanese Rock gardens) and the deliberate ease of their appearance on the eye, as well as meaning and design. This book is suitable for beginners right the way through to the more experienced enthusiasts of Japanese gardens. Lovingly put together by the author and editor Russ Chard - a Japanese garden enthusiast and writer for over 10 years. This book is 70 pages of pure Japanese garden information. The subject is complicated but Japanese gardens - Revealed and Explained is in plain English, simplified for ease of learning. Anyone with ambitions to create and build a Japanese garden or Zen garden will find this book a very useful companion to realizing their dreams and plans .
