Jean-Louis Deniot is one of them; If there can be an haute couture master of interiors he would be Balenciaga. I have followed his career ever since I saw his rooms for Artcurial. His masterful rooms for this exposition are like nothing I have ever seen. His mixing of architecture, textures, and style is truly amazing, he can mix the old(antiques, vintage finds, mid-century masterpieces) with the new(cutting edge contemporary design, fabrics, art) and compose a comfortable, elegant room without being cold, pretentious, or stuffy. Each of the projects in this book is bespoke to the owner so none look like any of the others. The pictures and design are top quality and you wont be disappointed.2 of 2 people found the following review helpful. They Just Don't Get Any Better Than This Book For Inspiring Interiors...By Attila The SubThis book of interiors is not just meant to decorate your coffee table...it serves as an inspiration to all of us of how interiors should be, from the largest and grand

spaces to rooms that are truly intimate. The details are glorious and unique. I have studied these images and read it cover to cover several times. As a matter of fact I have given copies of it to dear friends and when we are out shopping and we spot something truly unique we all posit, 'Deniot?'. May it inspire you to rearrange your rooms or simply paint your walls a glorious greige color that will transport you to the Isle Saint Louis. 0 of 0 people found the following review helpful. Jean-Louis Deniot's interiors leave me in awe of his talent...By Ruby TuesdayJean-Louis Deniot has become my new, favorite interior designer. Yes, any one of his rooms cost more than my annual salary, but they are beautiful to look at. He's daring, yet traditional, and a genius with mixing styles, textures and finishes. Every room he designs feels oddly glamorous and grounded at the same time. The man is a genius.As a budding interior designer trying to reinvent myself at 62 years old, he has become my inspiration. What I would do to spend a day in his head! Monsieur Deniot is truly gifted. You'll love this book.

The first book on the work of a designer whose refined classical interiors are widely desired and emulated as the epitome of French style. Honored as one of the top designers by all the international design magazines and universally admired by design editors, Jean-Louis Deniot is in demand. His updated classical approach now graces interiors in Paris, the French countryside, Moscow, India, New York, Chicago, L.A., and beyond and his legacy is already being compared to that of design greats such as Jacques Grange and Alberto Pinto. Deniot is an architect first, ensuring that the interior architecture of his rooms is harmonious before giving a neoclassical approach to the decor. He brings education, logic, and design history to his work, with one eye looking at the most refined style of French eighteenth century and one eye on the twentieth and twenty-first centuries. His mix is highly individual and includes contemporary art and custom-made furniture, yet his rooms always look comfortable and are never overly formal or trendy. This book demonstrates a new, sophisticated classical style that is changing the scene for international design and offering inspiration and ideas to decorators, homeowners, and antiques enthusiasts.
