**Jeff Ball : Jeff Ball's 60-Minute Vegetable Garden: Just One Hour a Week for the Most Productive Vegetable Garden Possible** before purchasing it in order to gage whether or not it would be worth my time, and all praised Jeff Ball's 60-Minute Vegetable Garden: Just One Hour a Week for the Most Productive Vegetable Garden Possible:

1 of 1 people found the following review helpful. ... TV show on YouTube late one night and really enjoyed it. I had just purchased my first home ...By U2popI stumbled onto Jeff Ball's public access TV show on YouTube late one night and really enjoyed it. I had just purchased my first home and was looking for that back to basics, dumbed down, easy to follow guide for building a garden. The show was outstanding, and so I purchased his book. I've enjoyed it very much and can't wait to get started in the Spring.3 of 3 people found the following review helpful. AmazingBy Michael L ReynoldsThis book can help anyone gain power over their own food supply. His easy-to-follow text,

pictures, and diagrams give everyone the opportunity to begin producing their own fruits and vegetables with minimal upkeep. Used properly, this book could change food production. 3 of 3 people found the following review helpful. Five stars is not enough for this book. By Mr. Johnny This book is well worth the investment. I bought his first book 25 years ago and it sits on my shelf where I let know one touch it. I've loaned it out a few times and I had stress attacks waiting for it to be returned. It's that valuable!!!

First published in 1985, this guide brings together the author's ten years of research and his unsurpassed expertise to create an innovative vegetable growing system that not only extends the growing season from early spring to early winter, but requires just 60 minutes of work each week. 65 photographs; 50 line drawings.
