Actually we were reading about how hawks may start coming after the birds at the feeders and I have had feeders in my gardens for years, and hawks. Then all of a sudden one swoop towards the

feeders and again the next day too. So before I lose a bird I've taken them down for awhile too keep my birds safe. 1 of 1 people found the following review helpful. Really great resource By J. Wolfe I didn't have experience in attracting birds to my back yard. This book not only tells you how to pick bird feeders but what to put in them to attract different types. It even has pictures so you can figure out what you've got. Love it and use it as a resource several times a week. 0 of 0 people found the following review helpful.
