Good used textbook, Excellent price,,,,,By grim norsemanI have a course this fall called "Jigs and Fixtures" in the Drafting program I'm enrolled in at the local Tech College. There is no textbook required for this class, just handouts, but I learned in last year's courses that I needed more information than I was getting in order to do as well as I wanted to. I have found about a dozen older textbooks for \$5.00 or less on that helped me maintain straight A's in other classes, and get on the Dean's list every semester last year. I am confident this book will help me do the same this fall. My knowledge of this subject is minimal, but after reading this book through, I have gained enough information that I won't be caught off guard and potentially fall behind when I begin my "Jigs and Fixtures" course work in August. Excellent condition, excellent seller, excellent used book price, another good tale to tell,,,,, };{0 of 0 people found the following review helpful. book, so much information you forget what you read! machinists2 of 2 people found the following review helpful.  
Required for schoolBy Mallosaurus.RexCovered a wide variety of aspects when it comes to designing jigs and fixtures.

This is a comprehensive introduction to the principles and concepts involved in designing jigs and fixtures for manufacturing. Beginning with basic design fundamentals, the text introduces, and explains in detail, information necessary to create efficient and cost effective work holders. Many specific examples of various jigs and fixtures, as well as many commercially available fixtures are applied as examples. ..The basic design principles, standards, and concepts applied in designing and construction jigs and fixtures are introduced and thoroughly explained and illustrated. Heavy emphasis is placed on the economics of jigs and fixtures using methods and formulas in determining work holder costs. From start to finish, a design is explained in detail and illustrated including all design considerations and parameters. Review tests are provided for all the units and some include design exercises..
