Beautiful Description, Pictures, and easy instructions and guidance.By Isatta HadiyahI thought this was going to be a typical home decor book with a bunch of super fancy looking homes that I could only DREAM of replicating but this book was realistic and had a multitude of different styles. It really shows you how to emulate your own personal style and what looks work best with different looks. I really love all of the personal, quirky touches. It's definitely for a person with eclectic taste like myself. The best part to me is how they explain how to fill in empty spaces with books, candles, and other knick knacks. I can't wait to go out and buy some fillers for my apartment.5 of 5 people found the following review helpful. Lovely and glamorousBy Hedonist In ModerationJonathan Adler is one of my design role models. I admire him so (and his partner, Simon, who is the window dresser for Barney's New York)! So when this book came out, I couldn't resist buying it even though I haven't any allocation funds towards redecorating.His imagery in this book is breathtaking and quirky. It's so fun that I

smile just looking at how Adler put together each composition and matched the colors. It truly is "happy" chic. :) I recommend this book for those who like non conservative and non traditional decor. It is for those who like vibrancy and wants that to envelope them. 3 of 3 people found the following review helpful. DisappointedBy charlene a. rowe Almost identical to other Jonathan Adler books. Some photos are even identical. I love his design look, wished I would have only bought 1 of his books and saved my money.

Chic with humor and style that's Jonathan Adler's way, and here he reveals the secrets of achieving his unique look. Crafting sentences as dexterously as he does ceramic vases, Adler takes us on a whirlwind tour through gorgeously styled interior. Organized by type of furniture (bed, bookshelf, dining table, dresser, table), Adler divulges all the tricks and tips needed to artfully arrange anything in one's home.

About the Author Jonathan Adler began his career as a potter, selling to such renowned stores as Barney's. In 2002, he launched a new furniture collection, later adding bedding, towels, stationery and designs to his repertoire.
