Jonathan Adler : Jonathan Adler on Happy Chic Colors before purchasing it in order to gage whether or not it would be worth my time, and all praised Jonathan Adler on Happy Chic Colors:

20 of 21 people found the following review helpful. Great book but too similar to Happy Chic Accessorizing By Woodsie the Owl I love Jonathan Adler. His positive energy and enthusiasm comes through in this book. I bought both this book and the accompanying Happy Chic Accessorizing. My only complaint is that both books use many of the same rooms and furniture just with different camera angles. Maybe Jonathan doesn't realize how popular he is. Didn't he know true fans would buy BOTH books? I want to see MORE of his ideas not less. That is the only reason I didn't give it 5 stars. But if you are only buying one, each is fun, inventive, chic and obviously Happy. I look forward to his next book. 1 of 1 people found the following review helpful. Tons of photos, decorating ideas for those who like bright colors and quirky patterns/decor By SanDiegoQT Great photos, captions, and lots of decorating idea (for those who like a lot of color). Quirky patterns and great book. 0 of 0 people found the following review helpful. I LOVE this book By Taylor Bowen If you're wanting realistic ideas for your home this may not be the book for you. It's full of over the top

designs and eye popping color. I happen to love looking through it and can easily translate his style into my own ideas for my every day home but some may find it to be TOO much. His color suggestions are practical and fun, though and can be adapted to any aesthetic. His photos make me happy and the book makes for a fun read and a visual trip! Worth owning.

No one has a happier sense of hue and pattern than Jonathan Adler! Inspiring readers to be fearless in their decorating choices, Adler guides us through color-drenched rooms, from True Blue and Going Rouge to Champagne Sparkle. Every chapter is devoted to his thoughts on one color scheme, and he reveals his go-to paint chips, favorite fabrics, and personal color muses, like Diana Vreeland and Grace Jones.

About the Author Jonathan Adler began his career as a potter, selling to such renowned stores as Barney's. In 2002, he launched a new furniture collection, later adding bedding, towels, stationery and designs to his repertoire.
