Wen-Chia Tsai Parker : Kids Can Compost before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids Can Compost:

3 of 3 people found the following review helpful. an original and informative resourceBy Selene LeeWith eye catching colors and clever use of simple language, Tsai Parker quickly caught the attention of our young children. "Kids Can Compost" piqued their interest to participate in nature's magic. This book not only encouraged them to compost, but also fostered discussion to help them understand the cycle of life - and the first step towards environmental responsibility.0 of 0 people found the following review helpful. fun and refreshingBy John MarstenAn educational and fun book for children and adults, it puts composting in the spotlight but also helps kids grasp the larger scope of the enviornmental impact that we have on our environment. This is a great way to introduce your little-ones to become aware of how we can do simple and easy things around the home... such as recycling, reducing waste, and being more concious of reusing materials. Overall, a positive message.2 of 2 people found the following review helpful. Kid-Friendly, Eco-Friendly and especially Dummy-FriendlyBy Karen LauThis book makes composting really easy to

understand. And even if kids aren't at that reading level yet, the illustrations are pretty see-say so every lil tyke can understand. And it promotes parent/child and teacher/child collaboration which is always a big plus. Great start to protecting and cherishing our planet!

A fun and colorful "how to" story picture book that teaches children about the good of composting. Children love to get work in the garden and help in the kitchen. Composting is fun, easy and a great way for kids to help our environment. This books is also a great way for parents to get started on composting. Composting reduces waste, recycles, and creates a natural fertilizer for your garden. Everyone benefits from composting, its a fun activity for the family, and builds a strong and beautiful garden.

About the AuthorWen-Chia Tsai Parker is a Taiwanese American born in Taiwan and raised in New York. Trained as an architect, a designer, problem solver and free thinker. She has always loved gardening and making things grow. Now, living in Los Angeles, California, her energy is focused on caring for her family of three children Kanoa, Makena, Kiki and her supportive husband Andrew. She reuses materials, and composts as much as possible. Wen-Chia adores her family and community and strives to preserve, reuse and recycle our earth's resources so that it can be shared with all our generations of children to come.
