**Kirstie Allsopp : Kirstie Allsopp Craft** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kirstie Allsopp Craft:

0 of 0 people found the following review helpful. Not for kindle By Leyla Unfortunately I must give this a lower rating, not because of the content, but because the kindle version is really bad. The photos are tiny, yes I can enlarge them, but they are still tiny. There are parts of the book which has single row of vertical writing which one cannot read. The content itself is great, written in typical Kirstie style. I watch all her programs and I wish there were DVD available in Australia, but for the moment I shall buy the physical books rather than kindle
