Writing specifically for new homeowners and those planning renovations, Bath pulls from her twenty-five-plus years of experience helping thousands of clients. Even though Bath faces a wide range of landscape design situations in her work, the solutions to these important landscape problems remain constant. That's why *The Landscape Design Answer Book* is unique. Bath reduces the subject of landscape design to about three hundred specific design problems (or goals) a homeowner may face--and provides solutions that can be universally applied.
