Michael G. Hawkins : Landscaping in New Jersey: An Environmental Approach to Landscaping in the Garden State before purchasing it in order to gage whether or not it would be worth my time, and all praised Landscaping in New Jersey: An Environmental Approach to Landscaping in the Garden State:

0 of 0 people found the following review helpful. Five Stars By Michael Villanella This book is for the novice and pro. It covers in detail the steps to landscaping in NJ. 2 of 3 people found the following review helpful. excellent By A Customer this book is wonderfully thought out and will be greatly infomative to me this upcoming spring. I thought the author was extremly clear on enviromently friendly landscaping in our garden state. I recomend this book to anybody. 1 of 1 people found the following review helpful. Fantastic! By A Customer This is a very comprehensive book on landscaping here in NJ. We have many soils to deal with and many different creatures that like plants. It will be a great help to us this spring.
