A Must Have for LandscapersBy Country GalThis is one of my go-to books when I want to add an ornamental grass to our landscape or I want to refresh my mind on a particular grass that I've planted. Ornamental grasses are no fuss and add so much drama in all four seasons. This book has beautiful pictures and gives many great ideas on how to use grasses and mix them in with other landscaping. It also identifies grasses and the climates they're best suited for. It sits front and middle in my bookcase.6 of 6 people found the following review helpful. Ornamental Grass-Ideas and Knowledge in one placeBy george sewardThe pictures were worth the price of the book alone. I wanted to use ornamental grass because of upkeep and hardiness since I live in Texas and rain this year has been a "VERY" valuable commodity.. The author does an excellent job in illustrating and noting on grasses for certain climates, shade, sun, etc. If ornamental grass is to be part of your landscape plan than this

I've always loved the Sunset books so decided to add this one ...By MF I've always loved the Sunset books so decided to add this one to my little collection of grasses books. Since I'm getting ready to plant more ornamental grasses in the garden, this is proving to be helpful. It's easy to locate information and has lots of ideas for garden design. Very happy with purchase and book arrived quickly and in great shape.

Sunset is the first to offer *Landscaping with Ornamental Grasses*, a complete design and reference book that explores the history of grasses in their natural settings, and describes how to integrate them in a variety of climatic situations: shady woodland to desert, Asian-style gardens to naturalistic landscapes, family-friendly yards to small patios. Step-by-step directions, over 250 beautiful photos, ideas for stylish indoor container and craft projects, and retail and mail-order sources make this new edition a must for anyone passionate about expanding their gardening repertoire.
