Alan R. Toogood : Lawn Craft (Ward Lock Master Gardener Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lawn Craft (Ward Lock Master Gardener Series):

Part 1 Shapely ideas: shapes and their effects; paths and edgings; alternatives to grass. Part 2 Greening up the land: site preparation; lawns from seed; lawns from turf; difficult areas. Part 3 Keeping up appearances: mowers and mowing; lawn edging and trimming; other regular tasks. Part 4 Weeding out intruders: frequent visitors ; controlling broad-leaved weeds; weed grasses; moss, algae, lichens. Part 5 Unwelcome visitors: pests and diseases. Part 6 New lease of life: the neglected lawn; repairs.
