**Stephen Blake Christena : Learn to Weld: Beginning MIG Welding and Metal Fabrication Basics - Includes techniques you can use for home and automotive repair, metal fabrication projects, sculpture, and more** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Learn to Weld: Beginning MIG Welding and Metal Fabrication Basics - Includes techniques you can use for home and automotive repair, metal fabrication projects, sculpture, and more:

1 of 1 people found the following review helpful. beginner heaven !By German A. Oliver exactly for beginners ! money well worth if you are trying to learn the very basics of welding. 2 of 2 people found the following review helpful. MIG It! By J. Farrell This guy is a successful MIG Welder. I am a proficient MIG welder but he has some ideas

and projects I found fun. He has a very good presentation. The book is well organized. The instruction will help an interested person learn to MIG weld. Since this is a beginning instruction ya' gotta' take the next step. More projects for yourself or others. Maybe even work in a shop. If you have a idea like the author does try that. Begin the adventure.0 of 0 people found the following review helpful. Great Welding TextBy Markomyt1Read this straight through. Can't wait to apply my new found knowledge. I highly recommend this book. Might even attend one of the Author's classes.

Master MIG welding and the metal fabrication techniques you need to repair, create, and duplicate projects in your home welding studio. Learn to Weld starts with the basics: setting up your studio, the right safety gear and safety procedures, and the equipment and materials you will need to begin with welding. With the help of step-by-step metalworking photos and tutorials, you will learn detailed techniques for cutting and grinding, and for joinery using a MIG welder. Practice the techniques and projects, and you'll soon be able to repair, create, and duplicate metal fabrication projects in your own welding studio. Best of all, you will have both the fundamental skills and the confidence you need to create whatever is in your imagination. With Learn to Weld you'll be equipped to conquer a world of welding projects.

About the AuthorStephen Blake Christena is the owner of Midwest Metal Works in Chicago, IL. MW2 offers custom fabrication services and a learning center for hobbyists interested in MIG welding. Christena teaches small-size courses designed to cover the basics and explore students' projects and interests. He is also a spokesman for Miller welding equipment.Originally from Flint, Michigan, Christena moved to Chicago in 1998 after graduating from Western Michigan University with a degree in art. During his time at WMU, his primary focus was directed toward metal sculpture, photography, and painting. He opened his first custom metal sculpture studio in August of 1998.[www.midwestmetalworks.org](http://www.midwestmetalworks.org)
