Don't recommend Kindle EditionBy Paula WilliamsI very much enjoyed all the helpful information Libby Langdon packs into her book, *Small Space Solutions: Secrets for Making Any Room Look Elegant and Feel Spacious on Any Budget* (Knack: Make it Easy). There are many ideas and hints I will be able to incorporate into decorating my 800 sq ft home. However, the Kindle Edition has too many typos and missing photos to warrant the \$9.99 spent for the convenience. Very distracting and even more frustrating. What a disappointment.0 of 0 people found the following review helpful. This is worth every penny. A great reference idea book.By Sandra L.This is just one of the best books like this I've seen. My friend who stages homes and condos for sale is claiming she "lost" it. Yep. Sure she did.
