items seemed more like experiments. Some of the experiments are even dangerous. A better title for the book may have been "Weekend Science Projects." Do not spend your money on this book. Go to the Instructables web site and search for the items that interest you. 2 of 2 people found the following review helpful. got alot of great hints that i have used

For the past few years, Grant Thompson has spent his weekends starting fires, building cannons, and experimenting with dry ice and liquid nitrogen. Hes made pumpkins explode, defied gravity, and discovered countless ways to make everyday life easier using ordinary items such as butter, suntan lotion, cupcake wrappers, and aluminum foil. His discoveries and experiments, many posted online to sites such as YouTube, have earned him the title of the King of Random. With the help of the staff at Instructables.com, Thompson has compiled the best of his weekend projects in Life Hacks. With life hacks from the King himself, youll see how easy it is to have better summers, less stressful holidays, and cooler literally birthday parties. Following Thompsons instructions in this book, youll be able to: Make dry ice with a fire extinguisher Create carbonated ice cream Start fires with plastic water bottles Charge your cell phone using your own energy Build working speakers for less than \$1 And much more
