At least 9 times, Mar tells us that he is a master, an expert, an authority, amazing and clever. He implies his ideas are so original that they exist on another level/dimension/planet? he calls "MAR's." Get it? He is "clever" with branding devices, too!The majority of photos in this book are ultra close-ups of flowers and Mar Jennings' face and dog. You can count whiskers on pages 18, 19, and 23, and look for dental fillings on page 34.On page 13, he tells us that this book is his "gift" to us. Actually, I PAID for this book, so it was NOT a "gift." My advice is wait for someone else who bought this book to GIVE it to YOU so it will fulfill its stated purpose.0 of 0 people found the following review helpful. Completely MotivatingBy JillLast year I gave this book to my sister-in-law as a gift, this year I finally bought one for myself. We have been in our house for a little over four years and I feel like I was loosing steam on our garden projects. This book has completely motivated me to look at the garden with a fresh eye. I am enjoying winter, and the snow, viewing the garden in it's winter state. I cannot wait for spring to start implementing some of the fresh ideas I have found in Mar's book. Inspiring pictures throughout with great ideas. A fabulous book to give to friends, family and especially yourself!1 of 1 people found the following review helpful.
