Peter Harper, Louise Halestrap : Lifting the Lid before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lifting the Lid:

This book examines alternatives to the flush toilet, how to manage your household's output of sewage, conserve water, and turn a potential pollutant into a nutrient for use in improving the environment. Includes chapters on the biology of

breakdown, how to choose a composting toilet, maximizing septic tanks, utilizing greywater in the garden, and designing twin-vault toilets. Peter Harper, author of *The Natural Garden Book*, is a landscape designer. Louise Halestrap is a consultant and lecturer. Both work at CAT.

About the Author Peter Harper, C.A.T.'s landscape designer and director of biological research, writes and broadcasts widely on environmental themes and is author of *The Natural Garden Book*. Louise Halestrap is the organic waste management officer at C.A.T.. An experienced environmental biologist, researcher, consultant and lecturer, she specializes in composting and sustainable water treatment technologies.
