Jacobo Krauel : Light in Landscape Architecture before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Light in Landscape Architecture*:

This volume showcases the amazing work of some of today's most ambitious architects and designers. Each project offers a fresh perspective of the use of this unusual resource. Beautiful, full-color photographs bring the proposals to life on the page, while detailed explanations, provided by the creators themselves, outline the techniques used and the ideas behind each of the creations. The projects on display here will surely be inspirational for anyone with an interest for modern design and make this book an indispensable reference for professionals and students.

About the Author: Jacobo Krauel, renowned architecture critic and expert, he is the author of the seminal book, *Sustainable Architecture: Low-Tech Houses*, as well as over a dozen titles focusing on the latest trends and applications in today's architecture. He currently resides in Barcelona, where he is researching the work of Gaudi.
