Wow these are some gorgeous prints! I ended up spending almost an hour perusing the stunning pictures and fantasizing about being filthy rich and hosting an event of this caliber. This book is heavy, large, and filled with high-resolution saturated prints. It is sure to be a good conversation starter if you leaving it sitting around in your living room. It is also very high quality for what it cost. The recipient of this book was impressed. The minus one star is because the edge of the book jacket was a little bent/worn when I received it. 0 of 0 people found the following review helpful. Pretty pictures and a ton of info on the author By Kieffer Pretty pictures and a ton of info on the author, would have loved to have learned more strategy and behind the scenes information. The author gave us his thoughts on light design but no background info on fixtures used or anything useful beyond that. I like Meeker his photos are inspiring but I bought the book to learn more

This collection features case studies of work by the inimitable lighting design guru Bentley Meeker, detailing 20 years of glamorous and sublime illuminations. The basic premise of how to light any space is illuminated here by a top expert. Notable examples include P Diddy's 40th birthday party, and the wedding of Michael Douglas and Catherine Zeta Jones. This impressive portfolio is sure to please the art, interior design, and professional and novice party planners alike.

"Bentley Meeker knows how to create a mood." --Quest Magazine  
"The guests are almost guaranteed to look lovely because Bentley Meeker, the lighting expert, will be seeing to that." --WWD  
"The book details 20 years of glamorous and sublime illuminations." --Hill's List, April 2011  
"Meeker's lighting highlights and transforms some of New York City's most glorious interior spaces, from Gotham Hall to The Museum of Natural History (imagine the whale in shades of blue and green speckles). While Meeker and architecture are a great pair, you'd be amazed at what he can do with a tent as well." --Design Public, April 2011  
"...page after over-sized page of lavish photos, a kaleidoscope of eye candy... And yet despite the technical complexity that must go into these projects, according to Meeker the heart of every design--no matter what the occasion, the budget, the client--is to achieve one goal: Make the space and the people in it look and feel incredible." --Style Maniac, April 2011

From the Author  
Light creates the environment; the environment creates the mood; the mood creates the experience. Light is the singular difference between an average experience and a great one. Very simply: It's about design.
