Kaoru and Lighting Planners Associates : Lighting Design: For Urban Environments and Architecture before purchasing it in order to gage whether or not it would be worth my time, and all praised Lighting Design: For Urban Environments and Architecture:

This book showcases a wide variety of ingenious lighting solutions both functional and purely creative by Lighting Planners Associates Inc. It features a huge range of projects, including office buildings, pedestrian zones, memorials, retail outlets, hospitals, arts centres, museums, and religious buildings. Lighting Planners Associates Inc., formed in 1990, is a group of lighting specialists established with the purpose of producing superior lighting environments, thus

contributing to the culture of architecture and lighting.
