Jane Scott Hodges : Linens: For Every Room and Occasion before purchasing it in order to gage whether or not it would be worth my time, and all praised Linens: For Every Room and Occasion:

By Grace Camille Lyons This book is like that indulgent piece of chocolate that you want to savor...I find a few minutes in a day to take and read/look at Linens...I do not want to finish it, and keep going back for more refreshment and ideas. What surprised me most was the great content. Many books of this size with beautiful photographs do not impart much knowledge on the subject of the photos. That was a delightful surprise, thus the 5 star rating. Was fortunate to briefly meet the author at a San Francisco book signing....was sorry I had not read it yet to tell her how helpful and wonderfully sumptuous Linens is- however, she must know it! I would not recommend this book to those who really do not care about (appreciate) being amongst beautiful things such as fine linens, towels, bedding, etc. 1 of 1 people found the following review helpful. If you love

interior decor. If you love interior decor, you must read this book. I thought I knew a lot about linens, having done a lot of research and shopping in the past, but I learned a lot and received many great ideas and recommendations. Bed, bath and dining linens are such an important element of any comfortable home, and this book is the quintessential guide. I kept thinking, this is the kind of book that has everything one probably would have learned from their mother (about linens) in days gone by. :) Also I believe it would be a great gift for a design enthusiast (consider including a set of cocktail napkins or kitchen towels too!). 1 of 1 people found the following review helpful. Linens: For Every Room and Occasion By PersianRugGorgeous and inspiring - what a lovely book! The photographs, as well as the text, reminded me that, yes, it is absolutely worth it to take the time necessary both to collect and to use beautiful linens. Includes some nice little anecdotes written by some well-known designers and, best of all, Jane Scott Hodges' excellent taste is evident throughout the book. Her designs will motivate even this lazy Southerner to get-with-it and make the effort. Thank you, for this beautiful book!
